Profile

Highly motivated and results-oriented Junior MEARN Stack Developer Recently graduated from the Faculty of Computer and Information Sciences (FCIS), specializing in Bioinformatics. I successfully transitioned into the world of web development through an intensive MERN Stack internship at the Information Technology Institute (ITI). Seeking a challenging role to leverage my technical skills and contribute to innovative software solutions.

Education

2018/10 – 2022/06

Bachelor degree of Bioinformatic

Mansoura, Egypt

Faculty of Computer and information science

GPA: 3.25 Projects: Graduation Project: Mouth Care Application Developed a web application to assist in early detection of oral cancer using AI models. Implemented image preprocessing, feature extraction, and classification algorithms. Deployed the model as a REST API for real-time predictions with grade A+

Internship

2024/03 – 2024/10

Intensive Training Program (ITP) MEARN stack Track at Information Technology Institute (ITI)

Mansoura, Egypt

2022/06 – 2022/10

PHP Laravel at IT Share Academy

Mansoura, Egypt

Courses

2024/06 – 2024/08

Search engine Optimization (SEO) at HubSpot Academy

2020/06 – 2022/08

Bioinformatics at FCIS

Projects

E-commerce web application

This project is a basic e-commerce web application built . It provides a foundation for online shopping, allowing users to browse products, view details, add items to a cart, and proceed to checkout. While this version focuses on the frontend, it can be expanded to include backend functionality for product management, user accounts, and payment processing.

Using:

- Back end (Node js-mongodb-express-mongoose)
- Front end(React js-bootstrap-formic)
